## THRONGS PAY TRIBUTE TO LATE POPE BENEDICT

### Viscount Bryce, Most Beloved Man in England, Succumbs

#### AS EXPONENT HOME RULE FOR IRELAND, DEATH IS MOURNED

(By Associated Press)  
LONDON, Jan. 23.—Civil and official England mourned the death of Viscount Bryce of Dechmont, who passed away at Sidmouth yesterday. Announcement of the death of this noted statesman, author and diplomat was unexpected.

As a man of letters and a publicist, Viscount Bryce was a world figure. Outside of his own country he was best known in the United States, where since the early eighties his interests had so largely centered that he was sometimes styled an "English Yankee." One remarkable thing repeatedly said of him was that he knew America better than most Americans. His "History of the American Commonwealth" has been a standard textbook in the schools of the United States for the past generation—providing the spectacle of a foreigner instructing Americans in their own history and laws, as de Tocqueville had done to some extent years previously in his "Democracy in America."

In 1886 he was appointed undersecretary of state for foreign affairs; he served as chancellor for the duchy of Lancaster, which gave him a seat in the Gladstone cabinet; and he was president of the board of trade in the Rosebery government. With the Liberals in power again in 1906, Mr. Bryce was made chief secretary for Ireland, a post for which he was prominently fitted, as he always had been a friend to Ireland and an exponent of home rule. After holding this post for 13 months in the Campbell-Bannerman ministry, he resigned to accept King Edward VII's appointment of him as ambassador to the United States to succeed Sir Henry Mortimer Durand.

#### BOLSHEVIKI TO DEMAND HEAVY REPARATIONS

(By Associated Press)  
MOSCOW, Jan. 23.—Bolshevik delegates to the Genoa conference will present reparations claims against various European powers and the United States. If these claims are made in terms of bolshevik rubles, new names for large amounts may be necessary, for the familiar terms of the decimal system will not cover the staggering sums claimed by this country, which issue single bills for one hundred million rubles.

#### QUITTEZ HEARING IS AGAIN POSTPONED

The preliminary hearing of Trinidad Gutterez, charged with being responsible for the death of Eugenio Peres, was again postponed this morning until tomorrow morning at 10 o'clock, owing to another case occupying the attention of Justice Cuddy.

#### MINING DEEP IS WATCHWORD AT NEW CAMP

The new camp of Royston continues to be the scene of a great deal of activity. The mining excitement of a few weeks ago that resulted in the population of Tonopah being reduced temporarily by about 300 people, has now settled down to a campaign of mine construction, although it is predicted that there will be another influx of investors and others with the advent of spring. That the permanency of the district will soon be known lies in the fact that work is to be in progress soon on three shafts that are to have depths of not less than 500 feet. This work will be crowded to the limit in order that the worth of the district may be ascertained as quickly as possible.

Installation of new hoisting equipment at the main shaft of the Hudson Mining company will shortly be completed. Heavier rails are being put in which will permit of the operation of a larger ship, and it is only a matter of a few days now until sinking will be started by the contractors. This shaft has a depth on the incline of 320 feet, or a vertical depth of 210 feet. From the lower workings a production of about \$8000 resulted in high-grade ore during the early history of operations, and it is believed that the ore shoots will be found to be persistent at great depth.

The Super Six Mining company, owning the Frisco group of claims, will soon be working full-handed in sinking the No. 2 shaft which is to be lowered to the 500-foot level. Leasers on this property are doing very well and early shipments are expected to be started for the local custom mills.

The Ben Hur Mining company is prosecuting an aggressive campaign of development under the supervision of Albert Kelly, and everything is now in readiness to broaden the scope of work. This company purposes sinking a 500-foot shaft on the ground it holds by purchase and lease.

Taberacel & Co., leasing on a claim close to the Hudson shaft, operations being prosecuted through a tunnel, have started drifting on an 8-inch vein of high-grade ore and it is expected that a mill settlement averaging around \$100 will be realized from the marketing of the product. Bazinet & Co., who control a block of ground on the Silver Cloud claim, recently uncovered about 14 inches of splendid looking ore, and have now caught the ore shoot in a tunnel that is being driven. Assays show that returns averaging around \$60 a ton should be received in settlement.

#### FIRE LADDIES BUSY DURING LAST YEAR

The report of Charles G. Askin, chief of the Tonopah fire department, covering the year 1921, shows that a total of 70 alarms were responded to, and that 69 ambulance calls were received. There were only two serious conflagrations during the year, the destruction of the Airdome and the "Big Ship." The other fires were not of a serious nature, and the damage, taken as a whole, was comparatively light.

#### CHINA LIKELY TO BE DENIED FURTHER ARMS

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—As one means of giving effect to its declaration last week in favor of reduction of the Chinese army, the arms conference is today considering another resolution looking to the prohibition of importing arms into China.

#### ORANGE CROP BADLY INJURED IN CALIFORNIA

(By Associated Press)  
SAN FRANCISCO, Cal., Jan. 23.—Southern California's orange crop has suffered 40 to 50 per cent damage during the present cold snap, according to preliminary estimates furnished by the state division of markets. The report adds that damage to citrus crops cannot be definitely fixed until the fruit dries out in a few days.

#### WOULD COMPEL HARVESTER CO. TO DISSOLVE

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—Senator Norris today introduced a resolution directing the attorney general to inform the senate whether the department of justice "contemplates any separate action" against the International Harvester company for the purpose of effectively restoring competitive conditions between the various corporations making up that concern. Objection was made on immediate consideration, and Senator Norris announced he would seek action tomorrow.

#### GEN. PERSHING DECLINES NEW ARMY HONORS

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—General Pershing declined to accept the Distinguished Service Cross voted by the army board of awards, and which Secretary Weeks had planned to bestow on him at a "surprise" party arranged to take place in the secretary's office. The plan was canceled when the general discovered the secret and went immediately to Weeks' house to declare his undeservedness of the honor. It was an outgrowth of an incident occurring when he was a brigadier general in the Philippines in 1913.

#### ANOTHER TEACHER IS ASSIGNED TO GRADES

Miss Nellie Speech, of San Francisco, arrived in Tonopah Sunday morning to accept a position as teacher in the grades of the public school. The employment of Miss Speech was found necessary owing to the increased enrollment over that of previous years. When the promotions have been announced, in about two weeks, there will be 20 additional pupils enrolled, and new classes must necessarily be arranged. Miss Speech comes to Tonopah highly recommended.

#### REHEARING IS ASKED IN BANK RECEIVERSHIP

Notice of intention to move for a new trial of the hearing and settlement of accounts of Receiver Frank L. Wildes, of the State Bank & Trust company, was filed Saturday with the county clerk of Omsby county at Carson City. The document was placed on record by Robert Richards, deputy attorney general, and four grounds are set forth why the rehearing should be granted as follows:

1. Insufficiency of the evidence to warrant the opinion decision, and order of the court settling and approving said accounts, or either or any of them.
2. That said opinion, decision and order, and each of them, are against the evidence.
3. That said opinion, decision and order, and each of them, are against the evidence.
4. That said allowance and compensation made to the receiver by and under said opinion, decision and order, and each of them, are contrary to law, not sustained by the evidence, and are excessive.

On the hearing said motion will be made and based upon each of the grounds aforesaid and upon the minutes of the court and notes and the transcript of the evidence read and taken herein, and all and singular the accounts herein on file covered by said opinion, decision and order; and on the hearing reference shall be made and there shall be used all and singular the foregoing minutes, notes, transcript and exhibits and the papers, records and files in the above entitled action.

#### AGRICULTURAL CONFERENCE IS CALLED ORDER

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—Attended by approximately 300 delegates representing agriculture in all its phases and industries related to farming, the National Agricultural conference was convened here today by Secretary Wallace, and immediately heard from President Harding a declaration of interest and sympathy by the administration in the present plight of the nation's farmers, together with a series of suggestions for remedying existing conditions.

The president's suggestions included practical development of the water resources of the country both for transportation and power, and including plans for electrification of the nation's railroads. The feasibility of the St. Lawrence-Great Lakes waterway is unquestioned, Mr. Harding said. Development through code of law and business procedure with proper machinery of finance, through some agency, to insure that turnover of capital shall be as generously supplied to the farmer and on as reasonable terms as to other industries; and formation of co-operative loaning, buying and selling associations.

#### BALLIET DOESN'T CARE WHAT OTHERS THINK

Letson Balliet was asked today why he does not deny the story that he would be a dark-horse candidate for chief of police. He replied: "What's the use? My friends don't need to see it denied, and I don't care what the others think."

#### WEEKLY WEATHER FORECAST

Pacific States—Generally fair except much cloudiness and rains and snows in Washington and Oregon; cold.

#### TRAVELERS CAN PROCEED SOUTH INTO IRELAND

(By Associated Press)  
BELFAST, Jan. 23.—News of raising of the boycott against the Irish free state against Ulster has caused a rush of commercial travelers to various railway stations, en route to various points in southern Ireland, who are anxious to resume the business the boycott had checked.

#### COLORADO MAN AND WIFE ARE BURNED TO DEATH

(By Associated Press)  
OKLAHOMA CITY, Okla., Jan. 23.—A negro packing plant worker and his wife were burned to death in a fire which destroyed the one-room shack in which they were living. Evidence of violence was shown in the partly crushed skull of the negro, according to the authorities.

#### JAPANESE HAVE NO DESIGNS ON RUSSIAN LAND

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—A statement declaring that Japan had no territorial designs in Russia and giving assurance that Japanese troops would be withdrawn as soon as a stable government should be established there, was made today by the Japanese delegation.

#### JAP DEMANDS WILL BE TAKEN UP REAL SOON

(By Associated Press)  
WASHINGTON, D. C., Jan. 23.—Secretary Hughes is understood to have informed the far eastern committee that the question of the Japanese 19 demands, abrogation of which has been asked by China, would be taken up as soon as a settlement was reached on Shantung.

#### CONSTABLE IS SENTENCED TO TERM IN JAIL

(By Associated Press)  
WILLOW, Cal., Jan. 23.—Ed Rehe, for 19 years constable at Artois, pleaded guilty in superior court today to burglary and was sentenced to from one to 15 years in San Quentin. He confessed to a series of burglaries of stores where he acted as watchman. He was arrested a week ago.

HARRY DUNSEATH left today for Carson City, where he has legal business demanding his attention.

#### MEETING OF SACRED COLLEGE TO SELECT SUCCESSOR ON FEB. 1

#### DEEPER MINING AT HORNSILVER NOW PLANNED

Deeper development is the watchword at the Orlean property at Hornsilver, operated by the Orleans Hornsilver Mining company. The prospects having been found to be persistent and of magnitude at a depth of 700 feet in the shaft workings, Manager A. I. D'Arcy has decided to sink a winze from the 700 level, and as a result work has been suspended temporarily in the extension of the southeast drift from that level.

The winze in question is out 100 feet from the shaft, and it is expected that ore will be followed for a good distance. As soon as this work has progressed sufficiently work will be resumed in the southeast drift with a view to opening additional reserves of ore.

The Orlean mine makes one of the best ore showings to be found on any property in southern Nevada, that has just passed the prospect stage, and the future promises to result in a heavy production of better than the average grade gold-silver ores. The fact that the ore vein on the 700 level has an average width of 6 feet and carries values of about \$30 a ton, and that these shoots have been found in the upper workings, places the mine in a class where it will have to be reckoned with when yearly production is computed.

Hornsilver is unquestionably destined to become one of the busy mining centers of southern Nevada. There are quite a number of properties undergoing development and finds of more than passing notice are being recorded frequently. The whole country is alive with prospectors and nearly all the ground within a radius of several miles is held by location. Deals are consummated frequently and by early spring there will be a number of strongly financed companies at work. This will make the new camp hum along at a lively rate, and in view of the fact that three or four properties other than the Orlean are nearing the producing stage, the coming summer promises to be epoch-making in the new-old camp.

Construction of a modern milling plant will be undertaken during the early spring by the Orleans Hornsilver Mining company, and it has been announced that custom ore will be received in addition to treating the product of the Orlean mine.

#### ANOTHER ROAD TO BE BOUGHT BY BIG W. P.

NEW YORK, Jan. 23.—A call has been issued for a special meeting of stockholders of the Western Pacific railroad at Wilmington Delaware, on February 20, to approve the sale of company bonds for acquisition of the Sacramento Northern. The stockholders also will be asked to approve expenditures for building an extension of the present Sacramento Northern lines to connect with Valjejo at an estimated cost of \$1,000,000.

(By Associated Press)

ROME, Jan. 23.—The meeting of the sacred college in conclave to select a successor to the late Pope Benedict will open February 1 or 2, it was stated today. In the basilica of St. Peter's historic church, the body of Pope Benedict XV lay in state today, while vast throngs passed reverently before the catafalque. At 9:45 o'clock the body was solemnly carried to St. Peter's, attended by a procession of cardinals, priests, members of the diplomatic corps, and dignitaries of the vatican, and placed on the catafalque surrounded by votive candles. Word was given out that the public of Rome would be admitted to St. Peter's up to 11 o'clock, and immense crowds immediately began entering the vast edifice, and filling by the body.

The body is robed in white, with stole and chasuble of red, embroidered with gold. The head, wearing the pontifical mitre, reposes upon cushions of red and gold velvet. The hands, wearing the pontifical gloves of purple silk and holding a rosary, are clasped over the breast. The body, as it was solemnly brought into St. Peter's, was borne upon red-covered bier by ushers clad in medieval costumes of scarlet. The procession was headed by the gonfaloniere of the vatican and the pontifical police, with elaborate uniforms of blue and white, walking with drawn swords. Following were palatine guards in dark blue uniforms and plumes of black feathers standing erect.

While all the cardinals resident in Europe are expected to reach Rome in time for the conclave, it is considered extremely doubtful whether the American cardinals will find it possible to be present, at least for the opening of the session as the late set is only 10 days away.

Cardinals Maffi, LaFontaine and Ratti, of Pisa, Venice and Milan respectively, are most prominently mentioned in vatican circles as the most likely candidates for the position of successor to Pope Benedict. In these circles Cardinal Maffi apparently is a pronounced favorite even of these three prelates.

The certificate of Pope Benedict's death was registered today at the city's bureau of deaths. It reads:

"The undersigned physician hereby states that at 6 o'clock a. m., on January 22, his holiness, Pope Benedict XV, Giacomo Della Chiesa, expired following an attack of bronchopneumonia brought on by influenza."

"Signed Dr. Raffaele Battistini."

#### BUTLER THEATRE

The wonder play of the century
